MINING ACTIVITIES ON THE UP AND UP

REASONS GIVEN FOR THE PRESENT BRIGHT OUTLOOK FOR GOLD MINING

From the Sacramento Commercial News we glean the following article by George W. Peltier which fits so perfectly into the picture as we view mining activities of this and other sections that we are taking the liberty of producing it this week hoping that it may interest the many readers of The Nugget who are deeply interested in gold mining:

"There is a great revival in gold mining. Individuals and corporations have mining men and engineers scouting through the western states on the lookout for properties, principally gold-bearing ores.

"There are reasons for this new energy which is reviving the mining business. The value of the staples is moulded by supply and demand and by the extent of the markets. The market value of gold is unchanged except in its purchasing power. The price of an ounce of gold is permanently fixed by government decree.

"The change in the buying power of gold is brought about by the changes that are made in the up and down scale of the commodities which the gold miner wishes to purchase. When commodities are high his gold will not buy so much; and vice versa, when commodities are low, his gold will buy more.

"The gold miner is never hampered by the lack of markets are unlimited. The governments of the world will purchase in unlimited quantities all the gold that is presented at their mints.

Mining possesses a great lure because of its romantic character. It attracts men who know the business and men who do not know mining. There is no finer asset in the world than a large deposit of gold-bearing ore that will average about $10 a ton, and the demand is greater for that type of property than for anything else for which men are looking. A good gold mine is hard to find. There are not many of them and that is why the reward is great after one is found.

The activity in mining is going to bring about the rehabilitation of gold mining. The hills of California will once again resound to the whir of the wheels of the hoist and the detonation of dynamite, and legions of men will be hunting for the precious metal. Commercial houses that furnish mining supplies will feel a stimulating effect, and mining will contribute to the re-energizing prosperity of the State of California.

BATH CONSOLIDATED IS SHOWING FINE ORE

NEW LEDG$ BEEN UNCOVERED AT THE GOLDEN EAGLE —PUSHING WORK

News of interest regarding progress being made at the Thomas Bath mineing property near Newtown in the Rough and Ready district was received at this office Tuesday with samples of quartz taken from a newly uncovered ledge at the Golden Eagle mine at a depth of 15 feet and averaging from $4 to $12 per ton.

The Bath company has six claims known as the Golden Eagle Number One, Golden Eagle Number Two, Henry Ford, Crag-y-nos, Bath and Rame Mendrow.

At the Bath is a thousand tons of good milling ore on the dump. The Rame Mendrow is producing ore at a 17 level which will average $5.00 a ton.

The Bath Consolidated mines are at the top of Long Ravine which runs down to Kentucky Flat where there was very rich placer gold taken out in the early days days of placer mining fed from the leads throughout the Newton section. Then there is Owl Creek on the other side of the apex on the Bath Consolidated. These creeks and their tributaries were very rich in placer gold. There are three leads besides a pophyry dyke in this property, awaiting capital to develop it into one of the big paying mines of Nevada County. "There are," said Mr. Bath, "the same leads that have made Grass Valley so prosperous and when the real mining companies wake up to what is waiting, and can see the opportunity, this section will lead in the mining industry.

WINS A SCHOLARSHIP

Addison James, son of Mrs. Mary B. James of Nevada City, and a graduate of the Nevada City High School with the class of 1930, has been awarded the Sidney Hellman Ehrman scholarship for the year '30-31. Young Janes' splendid record in his studies won him the coveted award.

NEVADA MINING MAN WILL OPEN OLD GOOD HOPE MINE SOON

Property Is Located About Seventeen Miles Southwest of Grass Valley—Ranchers in Vicinity Very Favorable To This Project

Frank J. Channing of Reno, Nevada was in this section about ten days ago and while here secured a lease and option on the mining property in Yuba county, some seventeen miles southwest of Grass Valley, containing the old Good Hope mine, which promises quick returns under intensive development, as a fine showing of gold ore at a shallow depth is in sight.

Channing reports there is an incline shaft down 100 feet on the vein which dips at an angle of 70 degrees. The vein is 16 inches in width of typical Mother Lode quartz and that the ore shows free gold both in the drift and on the 10 foot level as well as in a shallow winze thirty feet from the shaft. The ore contains some sulphuretes and specks of galena, characteristic of Grass Valley mines.

The mine has a few appurtenances consisting of an electric hoist which can easily be connected with an electric line three-fourths of a mile distant, and with a new shaft created at a raise above the winze and electrically driven machinery installed the work will go forward rapidly.

It is the intentions of Mr. Channing to drift on the vein, opening stoping ground and to develop at greater depth through the winze. The ore extracted will be trucked to the North Star mill in Grass Valley for treatment. The property is less than 100 feet above sea level and lies near the Old Dairy Farm mine which is credited with a million dollar production.

A mill will be built soon as sevelopment warrants, and the lease obtained. Mr. Channing has an option to buy from W. J. Sanford of Wheatland, son of the original owner.

Channing also has another mine, the Duncan Hill, in the old Ophir district one and a half miles west of Auburn which will be financed and operated by an eastern syndicate which has been interested through Channings' efforts.

The Duncan Hill mine operated from the Walsh brothers of Auburn, produced around $300,000 in high grade gold ore—"specimen stuff"—twenty-five or thirty years ago but has long been idle. It comprises two mines, the Centennial and Conrad, opened through tunnels long since caved. Channing took the mine over after a careful investigation of old records of production and information received from a miner he knows well who worked in the Centennial. He proposes to sink a new vertical shaft to cut the Centennial vein at 300 feet on its dip Th.e Ophir district had some great mines and conditions are very favorable for low operating costs, with electric power available and timber to be had at a low price.

Channing reports a demand for gold properties in the east and on his visits to Auburna nd Yuba county found a more friendly sentiment on the part of ranchers and fruit growers toward the industry than they formerly showed.

NEED OF SILVER IN WORLD COMMERCE POINTS WAY TO REMONETIZATION OF METAL

(By Gail Martin)

SALT LAKE CITY, Oct. — Weight of opinion in favor of a movement to remonetize silves seems to be developing daily. From every quarter comes expression of engineers, economists, and statesmen of national and international importance favoring remonetization of silver.

On Monday last, no less a person than Senator William E. Borah, of Idaho, according to the Associated Press, expressing himself as believing that the world needs an international monetary ratio established between gold and silver to insure world prosperity.

"The time is ripe," said Senator Borah, "to put through a silver and gold ratio acceptable to the nations of the world and there are groundds to believe that such an agreement may be had."

Another figure, John Hays Hammond, who looms large in the affairs of the world has expressed himself as in favor of a movement to remonetize silver. Hammond bases his belief on the shortage of gold and the inadequacy of yellow metal reserves as a basis for the expanding needs of commerce and finance.

"The friends of silver," says Hammond in an article in the October "Nation's Business," if she has any left, seem to be willing to take their drubbing lying down. But to me the plight of silver is not hopeless. If ever its modest value of 60 cents can be reestablished a contribution to world prosperity will have been made. The hoards of the east will again come into the market place with old time strength. A mining industry of the west will be rejuvenated. Allied mining will have been stimulated. Silver will remain as an agent that contributes to the well-being of mankind.

Another aredent advocate of the remoneitization of silver is Senator William King, who feels that a loan to China might improve the silver market, the question is far more fundamental.

"I have always been an advocate of bimetallism," said Senator King, when interviewed on his return to this city. "The silver question was not settled with the defeat of Bryan. Ever since we have had any records, silver has been minted at the ratio sixteen or fourteen to one of gold.

"Most nations have used gold and silver as money from time immemorial. Some of us denounced demonetization of silver as one of the most henious crimes in history for at one stroke the value of practically one-half the world's money was destroyed.

"The amount of gold in the world is too small to maintain the world's enormous credit. Furthermore, its production is rapidly decreasing, while the issuance of credit and the volume of business is increasing. If our present policy of gold monometallism is maintained, gold willl increase in value and commodities will decrease, bringing increased burdens to the debtor class.

"In my opinion the time was never more ripe for a vigorous movement to rehabilitate the white metal and give to it, not an increased commodity value but an increasedd monetary value.

"After I had urged President Hoover to confer with the leading nations of the world with the view of calling a conference which would deal constructively with the silver question, I received indications of interest in the matter from other countries. Among these was information that one of the largest commercial organizations in Great Britain had adopted resolutions calling to the attention of the British government the importance of broadening the basis of credit.

"I believe that when congress meets in December, one of the major questions presented for consideration will be one which looks to the adoption of a plan for a wider use of silver for commerciala nd indeed, for all monetary purposes.

There s a brighter day ahead for silver, and that day will dawn in the not far distant future."

BLUE LEAD CONSOLIDATED HITS VALUABLE ANCIENT CHANNEL IN THE RELIEF HILL DISTRICT

The Blue Lead Consolidated Mining Company. operated by business men of San Francisco, has been looking for the old Blue Lead channel in the Relief Hill district for the past year and a half. A tunnel driven 2,500 feet, they intersected the Blue Lead channel through an upraise of eleven feet above their workings. Although this seems that it is at least 20 feet above bed rock on the rim, the gravel prospects splendidly and justifies the report current of what the old channel did years ago when worked by local owners. Some thirty years ago the owners made an upraise into this channel at a distance of 2,000 feet from the portal. About 45 feet above the tunnel the channel was intersected and on a small bench worked at this point they took out some $62,000. Some very coarse gold was found in their washings. One nugget was displayed at the Chicago Fair and later at the St. Louis Fair weighing 13 ounces. It was taken from the channel at this point.

It is the expectation of the company to find much gravel like that in the channel as soon as the projected development of the company is completed. It has always been known that the best gravel taken out in the state came from this channel upon which were located famous mines such as the Melakoff, the Derbec, the Blue Lead, Waukashaw, Union, Eureka, Snow Point, Alpha and Omega mines. A record of the production of these properties is to be found at the Bureau of Mines in the Ferry Building, San Francisco.

It is the intention of the company to equip the mine with the most modern machinery employed in gravel. All the mining timber requirworking it under the conditions such as exist at the Blue Lead that gravel going two dollars a load can be made to pay handsome dividends. The gravel already developed in their upraise is considerable better than two dollar gravel: So it is no longer a question of what they can do, but a matter of equipment only. The equipment will be put in immediately and the mine put on production within a very short time. The installation of the generator, gravel bins, and sluice boxes is being pushed as rapidly as possible at the present time. The company has the advantage of a system for working the gravel. All the mining timber required is to be had on the ground, free power for operating and washing are theirs so that the property can be worked as economically as it is possible to work gravel at the present time. It is only natural that all those interested in the property feel decidedly jubilant over the showing disclosed in the upraise and they are determined to push the work as rapidly as possible and feel that they are justified in hoping to make the Blue Lead one of the best gravel producing mines in the state.

The officers of the company are Peter B. Feely, president; Charles H. Goldsberry, secretary and treasurer; and Harry B. Gray of Nevada City is their local manager.

Ignition Parts and Accessories at Miner's Foundry. 24tf

A Classified Ad. will rent that house!

Torpico Mine Busy.

At Rosamond, Kern county, the ten stamp mill at the Torpico mine is operating ten hours a day and stoping and drifting are advancing rapidly. The property has been operated by the Burton Brothers, H. Clifford Burton and Cecil J. Burton, for the past three years.

Mrs. Elsie P. Willoughby is home again after about three weeks spent in the Jones Memorial Hospital at Grass Valley so as to be under the direct care of Dr. Jones. Her condition is now considered good, though she will be confined to her home and couch for some time.

J. E. TUDOR PRESIDENT GOLD STAR IS VISITOR

Mr. J. E. Tudor, president of the Gold Star Mining and Development Company, was a visitor this week at the property and has a big smile for they are finding some real nice ore these days which puts pep even in the miners who are working at the Gold Star.

Mr. Roy King, consulting engineer for the Gold Star Mine, is predicting big things for the future of the mine.

This is one of the most promising virgin properties that are left in Nevada county and Mr. Tudor thinks he can in time have as big a mine as any of the mines that are here now.

On Deer Creek Hill, off Corn Meal Ravine a couple of prospectors sank a shaft about fifty years ago and hauled the ore out with a team and it is stated that they took out about one hundred and fifty thousand dollars but they were swamped with water and had no modern pumps like we have today. Therefore, although that was a large sum of money, they abandoned the mine. This is the eastern end of the Gold Star property.

After a ten days shut down the Gold Star has completed one of the best hoists of its kind in this section and it will handle the ore to quite a depth.

The company has the very latest and best machinery that money can buy as far as they have advanced and they expect to put up a modern ball and rod mill followed by the latest compressor air flotation. This should occur at an early date or as soon as they sink about fifty feet deeper and get a larger tonnage of ore to stope.

Mr. Tudor likes California better than Alaska for the simple reason that in Alaska one hundred and eighty five dadys is considered a long year, while here it is possible to mine the year round. He is quite familiar with the Mother Lode of California and he Considers Nevada county the best as it has to its credit some of the oldest and best producing and big dividend paying mines in the world.

One thing that the miners like Mr. Tudor for is that he will not ask a man to do any risky work that he would not do himself.

There are two things that Mr. Tudor is very proud of and they are that his associates are all high class men of means of New York state, one of whom, Mr. Sanford F. DeVed, has a seat on the mining exchange of New York and the other is that the best ore, with plenty of gold in sight at the Nevada City Chamber of Commerce came from less than one thousand feet from where he is sinking the Gold Star shaft. This ore came from the old Newton mine and some of it ran as high as two hundred and eighty dollars for gold and two thousand ounces for silver per ton.

This paper wishes the Gold Star the best of success as their success means a betterment for the community at large.

SIERRA ALASKA MINE HAS VISIT FROM THE OWNER

General and Mrs. W. S. Schuyler of the Sierra Alaska mine are spending a few days at the mine. They spent Saturday night at the National Hotel.

The Sierra Alaska mine is one of the richest gold producers in this section. Like many other noted producers, we understand, a great flow of water stopped operations.

General and Mrs. Schuyler have a home at Carmel-by-the-Sea and have made several trips to the mine in the interests of the property.

INSTALL MACHINERY TO DEMONSTRATE NEW MILL PROCESS

TESTS MADE OF LUCHENBACH METHOD FOR RECOVERING GOLD, SILVER, PLATINUM

A process for the recovery of gold, silver and other precious metals by the use of a chemical compound is being demonstrated in Reno by the Mineral Recovery Process of Nevada. A table manufactured by the parent company is in operation at 1½ N. Virginia street and test runs are being made on ore submitted for the purpose.

The process was invented by Roger Luckenbach, New York metallurgist and chemist and is in practical use in Washington and Oregon. It is especially adapted for the recovery of gold and platinum from sands but works equally as well, it is claimed, on any crushed product containing the metals.

Recovery of the metals is made by a vibrating machine designed for the purpose. The finely crushed ore is fed into a traveling rubber belt which is covered by canvas on which the compound is spread. The compound takes up the metals and the gangue passes off. The metals are then recovered by burning the compound.

The machine set up in Reno has a capacity of 70 tons a day and test runs on ore submitted without charge. The machines are sold at cost price to be operated on a royalty basis and the sale price is rebated on royalties.

The Mineral Recovery Process of Nevada is licensed to use the process in this state. William S. Boyle is president of the company, Q. S. Wong and D. J. Haggerty, vice presidents and Elwood H. Haggerty secretary-treasurer.—Nevada Mining News.

ELKS ANNUAL BOWLING TOURNAMENT STARTED LAST WEDNESDAY EVENING

The annual Nevada City Bowling Tournament started Wednesday evening, October 22nd and will end November 22th.

The Elks bowling committee headed by William V. Tamblyn has completed the personel of the various teams and a great deal of interest was shown when the Elks Club alleys resounded with the roll of the balls Wednesday evening, and the large number of sptctators gave a generous hand of applause whenever a brilliant play was made.

Exhaulted Ruler H. A. Curnow, heading the team which was in contest with the Bigelow team opened the game.

The Curnow team composed of Curnow, Fortier, Kopp, Leiter and Elliott. The Bigelow team: Bigelow, Nicholas, Mobley, Goyne and Dr. Marsh.

Personnel of Teams

Tamblyn, 150; Hogan, 145; Roland Wright, 140; Lobdell, 135; Costello, 100—670.

Curnow, 145; Fortier, 150; Kopp, 140; Leiter, 135; Elliott, 100—670.

R. Carr, 150; Hoge, 140; Riddle, 135; Scheemer, 135; Schrieber, 110—670.

Jackson, 146; Hegarty, 150; Ghidotti, 135; Mooney, 130; Penrose, 110;—671.

Dave Richards, 146; W. Wright 150; Durbin, 130; P. Carr, 145; A. Holmes, 100—670.

Schedule of Games

Curnow vs. Bigelow—Oct. 22nd.
Tamblyn vs. Jackson—Oct. 23rd.
Richard vs. Carr—Oct. 27th.
Carr vs. Curnow—Oct. 29th.
Bigelow vs. Jackson—Oct. 30th.
Tamblyn vs. Richards, Oct. 31st.
Tamblyn vs. Carr—Nov. 3rd.
Curnow vs. Jackson—Nov. 5th.
Bigelow vs. Rirhards—Nov. 6th.
Richards vs. Curnow—Nov. 10.
Carr vs. Jackson—Nov. 12th.
Bigelow vs. Tamblyn—Nov. 13th.
Curnow vs. Tamblyn—Nov. 17.
Carr vs. Bigelow—Nov. 19th.
Jarkson vs. Rirhards—Nov. 20th.

CHEROKEE

—O—

(By J. M. Swazey)

CHEROKEE—HEAD TO KUM
Up in the mountains, among the pines;
Up where the wild flowers grow;
Up whre the glorious sun always shines
And the clean sparkling waters flow.

Up where the fields are fresh with dew
And you hear the dull buzz of the bee;
Up where your neighbors are kind and true
And their favors are many and free.

Up where the clime is near always the same
Up where the gold flowed free;
Is a town of the forty-niner fame
And they named it, Cherokee.

Many old timers have long sinced passed
The families have dwindled to three;
But the work they did—their memories will last
'Till the end of eternity.

But mines are reviving; they'll have to make room;
They'll need more houses than three;
For the opening of mines will make things boom
Once more in old Cherokee.

COUNTY TEACHERS TO MEET IN TRUCKEE OCT. 28-29-30.

Truckee is anticipating the Teacher's Institute which is to be held in that city October 28-29-30.

The program, though not entirely complete at this writing, promises much in the way of educational advancement and entertainment. In fact is one of those excellent programs, such as has been previously arranged by County Superintendent Ella M. Austin.

The idea of local participation has created special interest, based on the following assignments:

Tuesday—Grass Valley Day.

Wednesday—Truckee Day.

Thursday—Nevada City Day.

Besides local talent from each of the three above, the following instructors will be in attendance for the purpose of contributing interesting members:

Honorable Vierling Kersey, State Superintendent of Public Instruction. Mr. Leroy Armstrong, American Book Company, Dr. Ira Kibby, Chief Vocational Department, state office, Dr. Vaughn MacCaughey, California. Truckee association, Mrs. Ethel Ward, supervisor, Shasta county, Miss E. Halstead, Speech Defects, etc., Mr. Harold George, director of music program.

The instute is the first to be held in Truckee for twenty-five years and hospitable interest is cordially evinced by the citizens of that city. The meeting will take place in the theater building.

LOCATION NOTICES—Quartz and placer location notices for sale at The Nugget office at 5c each.

SHERIFF CARTER BRINGS IN SODA SPINGS MAN

Sheriff George R. Carter, who left Nevada City Friday of last week for Salt Lake City to bring C. E. Mahoney to Truckee for preliminary examination, arrived at that place Monday evening.

Mahoney was employed by the American Express company at Soda Springs, and is accused of having embezzled funds from that and the S. P. Company and gone blythly on his way out of the country when apprehended at Salt Lake City. Sheriff Carter served a warrant issued from the court of justice at Truckee

The preliminary trial was held in Truckee, Tuesday morning.

District Attorney W. E. Wright. Official Court Reporter Miles D. Coughlan and Deputy Sheriff William Rickard went to Truckee to attend the preliminary examination. The accused was bound over to the Superior Court with two counts against him, one from the Express Company in the sum of $450.00 and the other from the Southern Cacific in the su mof $270. Mahoney is now languishing in the county jail awaiting trial.

THE HIGH SCHOOL NEWS

Edited Weekly by the Students Nevada City High School.

Editor, ...Laurel Phillips Sophmore Reporter.....Ruth Rector
Senior Reporter ..... Ruth Smith Junior Reporter .....Nadine Neagle
Freshman Rep., ...Eleanor Leonard

Events of the Week

Monday—The High School students marched in a body to the Washington school to attend the flag raising exercises given by the Native Sons.

Tuesday—Mr. Pedersen started to make back boards in the Redme'ns hall.

Wednesday — The Numismatic Club held its second meeting.

Quill staff, band and boys' chorus pictures were taken for the "Quill".

Thursday—A short Student body meeting was held to attend to expressing our sympathy to the Soote family.

Friday—Band pictures were retaken by Mr. Tamblyn.

Student Body Cards

Mr. Coates has introduced the system of student body cards. This sytem is used by many other schools and is very beneficial. The student body cards are about 2x3 inches in size and can be very conveniently carried about in one's pocket or in a purse. They will stand rougher usage than paper receipts and are much more satisfactory.

Camp Fire News

Wednesday the Natsihi group of Camp Fire girls, sponsored by Mrs. Kjorlie, their advisor, went on a short hike to the woods back of the Walters residence at Gold Flat. They chose a pretty spot where there was a table and a camp stove and then settled to a good dinner. At about dusk the group returned home and every girl agreed that a good time was had by each and every one of them.

The same grop of girls sponsored a food sale Saturday morning, Oct. 18th, down town.The money they received from the food sale is to be used for purchasing kitchen utensils for their club room on Pine street that Mr. W. G. Richards donated the girls a month or so ago.

Girls' Basket Ball Team

The girls of the Nevada City High School have organized their team for another year of peppy basket ball playing. The girls have practiced a little each night and on the first of the month will begin real practice under the direction of Coach Pedersen.

Last Junior Meeting

Last Tuesday, Oct., 14, the junior class helda meeting. The main purpose of the meeting was to find some way to raise money for the Junior Prom. It was finally decided that the class give a luncheon on some stormy day so it would be well patronized by the whole student body.

The Numismatic Club

One of the latest organizations of the high school is the Numismatic club. The purpose of this club is to learn more about stamps and coins. The members also exchange stamps.

The members believe that this club will be very interesting and intend to keep it an active organization. They will hold two meetings each month on either the first and third or second or fourth Wednesdays. These meetings are to be held in the evenings at seven o'clock.

Mr. Pedersen, a member of the faculty has organized this club. He has a large stamp collection and also a great number of coins which he collected while on his trip to Europe last summer. He displayed these coins at the first meeting and the the members immediately took a a great deal of interest in them because most of the members of the club had never seen foreign coins before. It was surprising to see the large number of stamp collectors in a small school interested in the club as it became organized.

The Freshman Party

The Freshman boys and girls are busy decorating for their party to be held on October 24, in the Nevada City High School gym. The gym is going to be decorated in Halloween materials and is very pretty. Games planned by the boys, will be played and dancing will prevail. Then, later, refreshments will be served.

Former Student Wins Scholarship.

The students of Nevada City High were very glad to learn that Addison Janes, member of the 1930 graduating class, has received the Sidney-Hillman-Ehrmann scholarship of two hundred dollars. Addison Janes is attending the University of California and is a boy of whom Nevada City High may be very proud.

Junior Defeat Sophmores

Captain Tamblyn led his fighting Juniors to a decisive victory over the Sophmores last Monday.

The Sophmores put up a great fight and threatened to score several times despite the supburb playing of the Juniors.

The Juniors have a fast, hard charging team that doesn't slacken for a moment but are in the game all the time.

The students are still asking for football, whilet he public still acts as if they are deaf and dumb.

COME ON—WAKE UP— public sentiment is what we want.

Help the students of the Nevada City High School get back the greatest game of all.

FOOTBALL ! ! ! ! ! !

Beautiful Danish Girls

Every one is interested in the various types of girlhood found in the different countries of Europe from the light-hearted Parisian to the shy Swedish maiden. The girl you meet on her bicycle in the streets of Copenhagen and the lass you see in the country dressed in her colorful Hedebo costume, differ widely in temperament and looks. It is the latter girl, however, whom the tourist will remember longest because they combine in their faces and equipment that rare combination of simple beauty and good training for housewifery. If beauty contests were held in Denmark there would not be enough prizes to go around, yet every beauty knows how to cook, mend and run a farm.—Exchange.

Inmates of the state institutions will be warm this winter as the state has just purchased $10,897 worth of coal.

ARRESTED, THANKS POLICE

St. Paul, Minn.—Police, trailing a car suspected of having been stolen, fired shots into the air. The fugitive stopped and as policemen placed him under arrest, said "thank you for not shooting me."

—X—

28 INCH BRIDE

New York.—Jenny Scalta, 23, only 28 inches high, became the world's smallest bride when she married Salvatore Coke, 38, who was nearly six feet in height.

VETRAN MINER BURIED IN RENO

RENO. Oct 13.—The funeral was held this morning in Reno for Fred Chipman, 76 years of age, veteran Nevada prospector and mining man. He died last Saturday.

He was a familiar figure in numerous mining camps. For two years he had been employed by the city park department.

KENNEDY ROYAL MODEL 726

This beautiful model is significent of everything symbolized by "The Royalty of Radio," It upholds every KENNEDY tradition. Its exquisitely grained butt walnut side panels and hand carved quarter French doors reflect an elegence that is obtained only by combining the finest veneers and craftmanship with a design of distinction. Every true lover of fine furniture will recognize this model as a masterpiece—the most beautiful radio in America.

CAMPTONVILLE

Mrs. Lester M. Jaynes, of Downeyville came down Saturday to spend the week end visiting relatives here.

John G. Ramm and Elwood C. Schurr motored to Downeyville Saturday with a load of produce.

Kate Hope Livingston, local high school teacher, and member of the County Board of Education motored to Marysville to attend a meeting of that body.

Guy Linch of Sacramento, spent the weekend here visiting his wife at Oak Valley.

Louis J. Joubert of Sawyers Bar, arrived Sunday enroute to Oakland on a short visit.

Mr. and Mrs. F. S. Labodie and Mrs. Acton M. Cleveland snd two daughters motored to Downeyville Sunday on a short visit.

Justice of the Peace William B. Meek and Julius E. Pauly returned Saturday evening from San Francisco where they spent the week attending the Masonic Grand Lodge.

L. F. Fournier, of Sierra City, passed through town Saturday from Sacramento enroute to his home after attending the Grand Lodge of Odd Fellows.

Ross C. Zaring motored to Marysville Saturday on a short business trip.

Eric Pauly and brother Myron Pauly students at the Marysville High school and Junior College spent the week end visiting their parents here.

Mr. and Mrs. Bud Ennis and Chas. Ennis of Alleghany passed through town enroute to the upper country.

Fred B. Hanson and R. C. Zaring motored to Bangor Sunday on a short visit.

Fred J. Jubert returned Sunday from San Francisco where he attended the Masonic Grand Lodge.

Mr. and Mrs. Seymour G. Smith and children returned Friday from a weeks visit with relatives at Glendale.

Lee Bullington and G. T. Langley put some new braces in the Oregon Creek bridge Monday and Tuesday.

Miss Dorothy Dyke, of Grass Valley was in town Sunday on a short business visit.

C. N. Chatfield, superintendent of the Mt. Alta Mine spent Sunday visiting relatives at Pike City.

Herbert Yore passed through town Monday from Oregon House, enroute to Sleighville House to gather some more cattle.

The Camptonville Shakespeare and Current Event Club held a regular meeting Saturday evening at the Groves Home on Spring street, with a good attendance. Reglar business of the Club was taken up, after which a modern play, 'L'ady Windermere's Fan" was studied and will be continued. Following the literary work, delightful refreshments were servedb y Mrs. Olive Groves.

PROPOSED SUNDAY CLOSING LAW—INITIATIVE NO. 26

Here It is, Read and Weep.

This initiative measure prohibits keeping open for business any store, barber shop, workshop, factory or other place of business, or performing or employing labor on Sunday; except necessary, charitable, or recreational work, needful during the day for good order, health or comfort of the community, enumerating many thereof but declaring enumeration not all exclusive; except work by members of religious societies which observe weekly for rest or worship a day other than Sunday, provided he keeps his place of business closed and does not work that day. It also declares contracts made on Sunday and acts limiting hours of labor of females not effected.

It shall be unlawful for any person firm, or associaton or corporation to conduct, carry on, or keep open for business on Sunday any store, barber shop, workshop, factory, or other place of business, or to perform or employ any labor on Sunday:

Provided, however, that the provisions of this act shall not apply to works of charity or necessity or recreation. In works of charity or necessity or recreation is comprised whatever is needful during the day for the good order or health or comfort of the community and includes not to the exclusion of any other; work or business not herein enumerated as follows:

Work to prevent immediate danger to life, property, public safety or public health;

Agricultural work and the care of live animals;

The sale or delivery of drugs, medicines and surgical appliances;

Furnishing of lodgings, meals or light refreshments;

The sale of fruit, confectionery, tobacco and magazines;

The sale of necessities for the comfort of tourists at automobile camps;

The sale or delivery of milk or cream;

Work necessary for the transportation of persons or commodities including the conduct or operation of motor vehicles, street cars, railroads, boats, airplanes, garages, livery stables and gasoline stations;

Work necessary for the continuous supply of electricity, light, heat, air, water, gas or motive power;

Work necessary for the dissemination of news and nformation including the preparation and sale of newspapers and periodicals and the use of the telephone, telegraph, radio and motion pictures.

Work necessary for the operation of parks, bathing establishments theaters, auditoriums art galleries, museums, athletic games, libraries and other places of lawful entertainment and recreaton;

Setting sponges in bakeries;

Work for the protection and operation of mines and to ahe utilizing of water power necessary to prevent serious injury and loss in mining or other industries where the water is not continuous throughout the year;

Necessary work in the making of cheese or butter and in any manufacturing plant or industrial process of such a continuous nature that the pubic welfare would suffer by a cessation of such work;

Necessary work to protect perishable produts; Any public utility which the public welfare requires should be kept in daily operation;

Necessary work for the care and upkeep of places of residence or abde;

Any work or place of business conducted by a member of any religious society which observes regularly each week as a day of rest or worship a day other than Sunday, and who keeps his place of business closed and does not work on such day;

Every person, firm or corporation that violates any provision of thi act is guilty of a misdomeanor and upon conviction thereof shall be punished by a fine of not less than twenty-five dollars or more than two hundred and fifty dollars or by imprisonment in the county jail or by both such fine and imprisonment.

Nothing in this act shall be construed as to impair the obligation of contracts made on Sunday, nor shall anything in this act be construed to repeal or limit an act entitled "An act limiting the hours of labor of females, etc.," approved on March 27, 1914 and acts amendatory thereto. If any action, subsection, sentence clause or phrase of this initiative is for any reason held to be unconstitutional such decision shall not affect the validity of the remaining portion of this act. The people hereby declare they would have passed this initiative and each section, sub-section, clause or phrase thereof irrespective of the fact that any one or more sections, sub-sections, sentences or clauses or phrases be declared unconstitutonal.

Mrs. William B. Meek returned Sunday from a week's visit with her daughter, Mrs. F. J. Joubert at Oak Valley.

E. G. Eidson of Marysville was in town Tuesday on a short business visit.

Way Down Back

Jimmy is very hard on Booth and trousers and naturally his mother remembers this when she goes shopping. One day while out with a friend she was buying cloth for a pair of trousers for the boy, and ordered a good deal more than seemed necessary.

"Why do you buy so much?" asked the friend.

"Oh," responded the mother, "this is for the reserved seats."

Ratify
the action of YOUR Legislature & Tax Commission
(There is no opposing Argument)
VOTE YES ON 4
The OBJECT of the Electric Railway Tax Equalization Amendment (Number Four on the ballot) is to reclassify for taxation purposes the electric railways of California as distinct from the steam railroads and to place the taxes of the electric railways on an equality with taxes paid on common property and by the motor bus and stage companies. It is:
BASED on the California Tax Commission's findings that the electric railways "bear a disproportionately large tax burden."
APPROVED unanimously by the Senate Committee on Revenue and Taxation and the Assembly Committee on Constitutional Amendments.
ADOPTED by the State Legislature for ratification by the voters.
ENDORSED by the State Board of Equalization and the County Assessors' Association of California.

FRENCH CORREL NEWS

Tempus fugit!

We must begin with an apology, for owing to the change in the day of issuing the Nugget and a little indolence on our part, we are a little behind time with our items, yet we cannot forego the pleasure of telling who has "been and gone" in our section.

Mrs. J. W. Culver and Mrs. E. T. Schwartz reported a most enjoyable time at the last meeting of the O. E. S., which they attended in Smartsville.

Lawrence Powell and his friend Herman Britles returned to their home in Oakland last week after a pleasant sojourn as the guest of the former's father, Dr. A. J. Powell.

Lloyd Haslett had business in Marysville last week, in the employ of W. W. Washburn.

Mr. and Mrs. E. Chatly and little sons and Mr. E. Hadley of Oakland spent the weeks end with Mrs.Chatly's parents, Mr. and Mrs. J. W.Culver.

Miss Millie Clerkin made a short visit to friends here during the past week. They will soon return to their home near French Corral for the winter.

Stockmen are busy bringing their cattle to the foothills for the winter. Many large heards already have passed through this section and some have rested their droves over night.

Mrs. A. Browning made a hasty trip to Nevada City last week where her son Willis was very sick with tonsilitis. We are glad to state that Willis has recovered from the attack and is home again.

Mrs. Annie Browning of Nevada City returned to that place last week after an extended visit with the family of her son Aaron Browning.

Mrs. F. S. Wood and little son Carl; Mrs. E. Roux and children Donora, and Walter and Mr. J. Bartel of Berkeley visited this section last week. Mrs. Wood has been under medical treatment for some time and her many friends will be glad to know she is much improved in health.

Miss Frances Moulton spent Columbus Day vacation with her parents at this place. She is employed in Sacramento.

Misses Alice and Virginia Day visited friends here last week.

Clyde Browning who is employed at the Mt. Alta mine, was home for a visit.

J. Swazey made a trip to wind up the pleasures of this hunting season. No luck this time though.

Wm. Hatch and family of Nevada visited the family of A. Browning last week.

Mrs. K. Broyles and family and Mr. and Mrs. A. Labour were here to enjoy the last of the hunting season. Mr. Labour was the only locky hunter in this section. He secured the limit.

Mentioning the hunting season brings to mind the sadending of the late Reuben Renfree. All share in grief with his family over the sad accident which caused his death.

Miss E. Davis, he school nurse paid a visit to French Corral and a most interesting afternoon was spent. Mothers and babies turned out en masse and all look forward to her next visit.

Mrs. P. Nichols and son Chester of Sacramento were guests of their friend Mrs. K. Sullivan, Monday and Tuesday.

Miss Henretta Haslett spent the past week with friends in Marysville and Yuba City.

Mrs. E. Schwartz, Mrs. K. Sullivan, Miss Nelly Sullivan and Albert M—, visited San Juan last Wednesday afternoon.

The children of the French Corral school—we should say the boys—gave a whist party last Saturday evening. The party was well attended and several tables of whist pere played. The proceeds are to be used in purchasing a football. Newtown, San Juan and Birchville were well represented. The boys did all the work, even to making the beautiful prizes. We think our school children can accomplish most anything under the efficient instruction of their teacher, Mrs. E. Schwartz. They will give another whist party three weeks hence.

Mr. and Mrs. R. McNamara were visitors from Tyler, Saturday and Sunday. Mr. McNamara's many friends will be pleased to know he has fully recovered fsom his late accident.

Mrs. J. W. Culver was given a most delightful surprise Sunday afforenoon by members of the O. E. S. from the Earl district. From what we learn it was a delightful surprise on both sides for this was the first visit to French Corral of those in attendance. They were simply charmed with our beautiful country and several objects of interest. Our school house, which though up to date in many ways, is a relic of the early days and the old hotel the home of Mrs. Culver which was built in 1850. All say they will come again. Those present were: Mr. and Mrs. M. Pitman, Mr. and Mrs. Hedelberg, Mr. and Mrs. L. Davis, Mr. and Mrs. Rossi, Mrs. Hymes, Mrs. Best, Mrs. T. Swartz, and son Teddy, M. M. Ora McNamara.

Or Anywhere

Early Changes Owners

The Early group of gold claims near Sweetwater, California, has been taken over by the Early Gold Mining Company, formed by Arizona and Los Angeles capital and is planning early operations on these claims some of which was worked in early gold mining days and yielded heavily. One shaft, it is said, has been sunk to a depth of 110 feet and several drifts and crosscuts have been made with resultant pay ore in considerable quantities exposed.

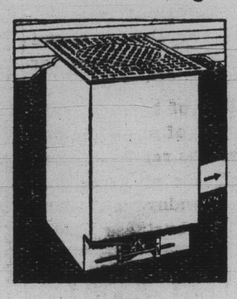
Gas-fired heating is clean and care-free

If you are tired of making fires on chilly mornings, tired of cleaning out ashes and dirt from smudgy fires—then one of these labor saving appliances is just the thing for heating your home

The Floor Furnace

The Floor Furnace is ideal for homes having no basement.

This gas-fired appliance will heat two or three rooms comfortably, even in the coldest weather. You turn a handy valve to start it. Quickly, it circulates warm air all about the rooms. It draws cold air off the floor, down around the hot outsides of the steel firebox, and back into the room as warm air, without mingling with the burning gas. All products of combustion are vented outdoors.



Floor Furnace

Completely installed for $10.00 down and only $7.50 a month.

The Circulating Room Heater

The Circulating Room Heater is ideal for heating small homes, stores, and offices. No basement is necessary.

This circulating heater is a graceful cabinet, harmonizing with the most tasteful furnishings.

You'll like its clean, convenient heating. It circulates healthful warm air in from 2 to 4 rooms. No products of combustion can escape into the room—they are vented outdoors.

This economical heater will be installed by us for only $5.00 down and $7.00 per month.

Circulating Room Heater

The Radiantfire

You can modernize your fireplace and change it into cheerful, care-free heating by installing a Humphrey Radiantfire.

The Radiantfire does away with the discomforts of the old-fashioned fireplace, with its wasteful heating, dirt and ashes and all attending labor. At the same time it gives you all the romance of an open fireplace.

Have a Radiantfire installed in your fireplace. Light it—quickly it takes away the chill and spreads radiant warmth to every corner of the room. There is a Radiantfire suitable for every fireplace, in colors and designs to conform with any decorative scheme. We'll install one in your fireplace for $5.00 down.

Radiantfire

In addition to these three inexpensive but efficient heaters, there are warm-air furnaces suitable for homes having a basement.

And remember, when you have gas there is no fuel to order. No cleaning to do. You pay for the gas *after* using.

See these house-heating appliances at your dealer's store or call at our office.

"Cold weather may catch me by surprise, but with our new gas heating system my wife and children can keep warm and cozy without any effort or trouble."

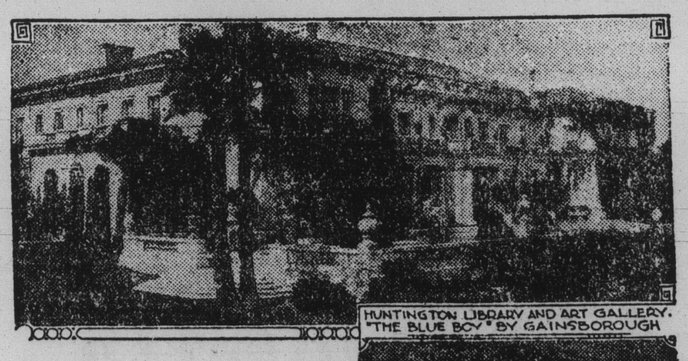
FREE HUNTINGTON LIBRARY FROM TAXATION



HUNTINGTON LIBRARY AND ART GALLERY. "THE BLUE BOY" BY GAINSBOROUGH

THE late Henry E. Huntington gave in trust for the people, the great Huntington Library and Art Gallery, and created a trust fund for its support as "a free Public Library, Art Gallery, Museum and Park for the advancement of learning, and to promote the public welfare."

It is a library of libraries—a collection of collections. It comprises 175,000 separate titles of printed books and about 800,000 manuscripts. It contains the vellum Gutenburg Bible, a remarkable Shakespeare collection and more than 5300 titles of books printed on movable type before the year 1501.

It contains, among other treasures, the Gainsborough "Blue Boy"; Reynolds' "Tragic Muse"; and Romney's "Lady Hamilton."

A. S. W. Rosenbach, probably the greatest living authority, says—

"... Mr. Henry E. Huntington was the greatest collector of books the world has ever known. The library will be the Mecca of students for all time."

The California Legislature placed on the ballot for the coming elections **(Proposition No. 15)** a Constitutional Amendment to free this property from taxation, just as Stanford University was freed some years ago, but added the safeguard that the legislature may revoke the exemption at any time. This amendment is specifically endorsed by the California Taxpayers Association and merits the support of the voters. **Vote Yes.**

Compliments
TOURNAMENT OF ROSES ASSOCIATION

FATHER RICARD, NOTED ASTRONOMER, SAYS NO "DAYLIGHT SAVING"

Time out of mind, mankind has used the natural equable division of time made by the sun when it crosses the meredian of any given place. Here, by the meridian, we understand the verticle circle which passes through the poles of the heavens and the zenith of the given place. At that time the sun-dial marks 12. It is called high noon, or simply noon.

The invention of clocks introduced "mean time," which differs slightly from "sun-dial time." In practice, small differences do not count, except by accumulation, which is not our case here.

Another small difference was introduced by "standard time" which for California is the time of the 120th meredian west of Greenwich. This time is calculated at the Mare Island Observatory and is distributed by the Western Union and also by a radio transmitter. This is the time we go by, hence its name.

Thus we have
(a) sun dial time,
(b) mean time or clock time,
(c) Standard time.

These three times agree within a negligible amount of minutes and seconds, at least for a large number of places. Standard time, howeer, can be wrong even by one hour.

The main point about time is that noon or 12 o'clock, M., by physical law divides the interval of day and night into two equal parts. It is the 'n'atural'' time to start work and refresh oneself by food, drink and rest. Necessity of course, or convenience may dictate a somewhat different arrangement.

Against this natural course, come the light savers who want us to rise, breakfast, work, lunch, quit work, dine, or sup and retire an hour earlier during half the year.

The rsult of all this change is that the employer gets the best of the employee, for it is well known that an hour in the early forenoon is better than an hour in the afternoon. For an hour gained in the evening hour is squandered in the evening. Hence there is no light saving. This light-saving business is a misnomer; an ambiguous catchword, like many others, "understood by the upper ten but misunderstood by the lower (90). The correct phase would be labor-saving or labor gaining. But this would be too clear and therefore objectionable.

Another angle of the light-saving proposal is that it should be enacted into law, which is only another way of further crushing already crushed liberty and enslaving a free-born people.

Another ugly phase of the so-called light-saving is that it would undermine our physical constitution. For everybody knows that a morning sleep is the most refreshing. The early morning hours pass quickly, because people are sound asleep, hence the name "The wee hours of the morning."

Nobody wants your extra free hour in the afternoon; it's a dead loss. People won't go to bed like chickens. Hence, the light bills will be the same as before. People did not and will not keep the light-saving law, because it is outrageous and those who keep it, if any, are greatly incommodated.

The farmers do not want it, on account of the fog or dew in the early mornings, the fields are wet and unfit for operation. They have to wait an hour longer before going to work

A law is defined "an authoritative regulation for the greatest happiness of the greatest number". But with the light-saving folks, a law is a regulation for the greatest happiness for the least number, and the greatest unhappiness for the greatest number.

J. S. RICARD, S. J.

MOVES EXECUTIVE OFFICES TO PACIFIC NAT'L. BANK BLD.

Growth of its subsidaries, Italian Bond and Shares Corporation and Italian National Building and Loan Association, has forced the Italian Investment Corporation to expand its executive offices, which are being moved today to the Pacific National Bank Building, 333 Montgomery street, San Francisco. The Head office of Italian Bond and Shares Corporation is being moved at the same time to the new address.

Headquarters of Italian Investment Corporation have heretofore been maintained at 524 Montgomery street, in the building occupied by Italian National Building and Loan Association, but expandiog operations of the Italian National made it necessary for this subsdary to occupy all of the space in the building, and the growth of the Italian Bond and Share Corporation suggested that larger quarters be provided for the two corporations at the same time.

A long term lease on the entire ninth floor of the Pacific National Bank building insures a permanent location for these corporations in the center of San Francisco's financial district. From here they will direct operations of the Italian Investment group, which extend all over the Pacific coast territory.

"Our increasing volume of business demands not only more floor space but conditions ideal for the greatest efficiency," said Girola, when interviewed at his new office. "Recent additions to the staff of the Italian Investment Corporation and Italian Bond and Share Corporation taxed the capacity of our former offices, but we are sure that here we have all the facilities necessary to carry out the ambitious program we have outlined for the balance of 1930 and for 1931."

MEMORIAL SERVICES HELD FOR MRS ANNA LANDSBURG

The Methodist church was well filled last Sunday to hear Reverend Buckner in a memorial sermon for the late Mrs. Annie Landsburg.

Special song numbers, "In the Garden," sang by a quartette from the choir and "The City Four Square" beautifully rendered by Mrs. Lora Niles of Grass Valley, added to the service.

The evening services were given over to a gospelt eam consisting of three young men from Davis Agricultural college who conducted a very fine meeting which was well attended.

——0——

MRS DAVIDSON WILL BE LAID TO REST FRIDAY

Funeral services for the late Mrs. Katie C. Davidson will be held at two o'clock Friday afternoon at the family residence on Boulder street, the Holmes Funeral Home in charge.

Mrs. Davidson had resided in Nevada City for the past 35 years and will be greatly missed by scores of friends and neighbors, her disposition being such that she was greatly loved by all who knew her.

She leaves a husband, L. W. Davidson, one daughter, Mrs. Kate Smythe, two sons, Lewis and Bertram Davidson and her sister, Mrs. Randolph Carter.

——0——

NAMES IDENTICAL THREE MEN SUMMONED FOR ONE CALL

Three men sitting together on the porch of the Hotel Tamworth of Tamworth, N. H., were having a casual conversation. Conversations do not have to be preceded by formal introductions on the Tamworth porch. They looked up as one when a voice announced "Mr. Huntress, wanted on the phone."

"Which Mr. Huntress?" said one of the three. The voice replied "Mr. Fred Huntress," whereupon all three proceeded to the telephone booth and failed to squeeze in. They were in no ways related but they were Fred Huntress, of Lynn, Mass., Fred Huntress of Freedom, N. H., and Fred Huntress of Tamworth on the same little porch of the same little hotel at the same time.

——0——

Judge—You hit your husband with a chair? Pray, tell me, why did you do it?

Lady—I did it because I couldn't lift the table.

——0——

It seems funny, but true.

Hoover is not included among the 49 men who rule the United States.

DAUGHTER OF MR. AND MRS. PULLER DIES IN RENO AND IS BURIED IN THIS CITY

Rev. Father O'Reilly, celebrated requiem mass in St. Canice Catholic church last Tuesday afternoon for little Mary Puller, whose untimely death occurred in Reno, Nevada.

The child's death was caused by heart trouble which had followed an attack of scarlet fever. The best of care by physicians, nurses and the heart-broken parents could not keep her and death claimed her at three o'clock Saturday aftenoon.

The parents, Mr. and Mrs. Frank Puller are known by many here. Her mother is the former Miss Loretta Phelan, daughter of Mr. and Mrs. K. J. Phelan of Tyler. Deepest sympathy is extended to the bereaved parents, the small brother Everett and other relatives.

The funeral was conducted by the Holmes Funeral Home. The pall bearers were M. E. Chadsey, Otto Fillmore, Francis Phelan and Herbert Costa.

——0——

COURT HOUSE NEWS

Marriage licenses were issued during the past month to Melvin E. Drum and Frances H. De Guire; Robert Robbins Hall and Gladys B. Campbell; Albert Wm. Rogers and Prudence M. Pfeiffer.

——X——

Mining locations since September 15 by R. M. McCormack, quartz; Earnest D. Rodrick, quartz; G. C. Woodruff, N. C. Woodruff, Mabel M. Hardenbrook, Laura M. Hardenbrook, T. J. Meyer, J. T. Ryan, J. S. King and wife, J. W. Thomason, three placer locations.

——0——

Food Sale Saturday

The young folks of the Intermediate League of the Methodist church will sell home cooked foods in the building owned by W. G. Richards and situated next door to the Forest Reserve headquarters on Pine est Reserve headquarters on Pine street. There will be a splendid assortment of food on sale at reasonable prices.

——0——

H. EARL TAYLOR IS AT REST

Rev. H. H. Buckner conducted the funeral services Wednesday, from the Little Church Funeral Home, for the late H. Earl Taylor, a former resident of this city who died in Pocatello, Idaho, Friday of last week.

Mr. Taylor's request was to be buried here among the beautiful pines of Nevada county, and he was laid to rest in Greenwood cemetery, Grass Valley. The funeral was attended by many former friends of the deceased.

——0——

Among the world's saddest, best known erpressions is "returned; insufficient funds."

——X——

Foretelling political races is like forecasting the weather when it happens, it's an accident.

——X——

If a man had to take the advice that he seeks, there would be fewer inquiries of such a nature.

——X——

Thank the Lord that fence sitting has been abated.

——X——

Waiting is tiresome business. Better get up and hustle.

ELKS ELECTS LOCAL MAN VICE PRESIDENT OF STATE ASSOCIATION

P. G. Scadden, Nevada City's postmaster was elected vice-president of the state Elks Association of Northern California when a meeting was held at Monterey last week.

An active and enthusiastic member of the order, Mr. Scadden is well fitted to fill a position of that magnitude and eppreciates fully the honor extended in its bestowal. He is a charter member of the Nevada City lodge of Elks ,a past exalted ruler of the lodge, and past district deputy grand exalted ruler for Northern California. He is secretary of Nevada City Elks Home, the holding corporation of the Elks building, and through virtue of his secretarial position has had charge of the improvements of the building during the past several months. His election is a source of pride to his associate Elks and friends, who feel he has fully earned his position of honor through his unflagging efforts in behalf of the Order, and of the Nevada City Lodge of Elks, one of the leading lodges in California.

SIERRA COUNTY MINE TO REOPEN SOON

Details of a deal which involved the bonding of the Ruby Mine, which has not been operating for several months, will be consummated very shortly and intensive work will commence on this property, which lies adjacent to the famous City of Six, in Sierra county.

Mr. C. Craig, a mining man of experience, who has operated in Mexico for the past several years, visited the mine and after a thorough examination felt free to use his influence in getting the backing with which to finance the operation of the mine and was able to obtain a bond and lease on the property.

This mine has several hundred thousand to its credit, and though it was a heavy producer, it still has much virgin ground left and it is the belief of Mr. Craig that with the use of modern machinery and a large crew of men, it will be one of the large producers again.
